

WESTERN ON THE PENINSULAS EXPANSION

MAKE WAVES.

43% OF WOTP STUDENTS ARE FIRST GENERATION

Western Washington University brings dedicated programs directly to the Puget Sound and Central Salish Sea regions. We want you to be able to learn where you live, so we've specially designed education, business, sustainability, and cybersecurity bachelor's degree programs that are tailored for students in your region, students transferring from community colleges, and students looking to learn online.

2023 Budget Request

Western requests funding to expand 2+2 degree programs on the Kitsap and Olympic Peninsulas offered in partnership with Olympic and Peninsula Colleges. New undergraduate programs will include degrees in Industrial and Systems Engineering, Data Science and Sociology, in addition to a new Master of Social Work degree program. Funds are also requested to build a core foundation of support staff and to establish sustainable outreach operations and partnerships with K-12 schools across the Olympic and Kitsap Peninsulas region. Over the next ten years, WWU's goal is to dramatically increase student enrollments at WWU Peninsulas through targeted outreach programs to create permanent and sustainable pathways to postsecondary credentials for high school students and working adults, innovative partnerships with Olympic and Peninsula Colleges, and models of delivery focused on serving location bound and underserved populations.
